

PROFESSIONAL SUMMARY

A results-driven web developer with 4+ years of professional experience building scalable, responsive web applications. Strong expertise in PHP Laravel for back-end development and React JS, HTML5/CSS3 for polished front-end interfaces. Adept at integrating AI tools (ChatGPT, GitHub Copilot, Claude AI) into development workflows to accelerate delivery and elevate product quality. Comfortable leading full project lifecycles — from architecture design to final client delivery.

WORK EXPERIENCE

Web Developer Executive

Digital Soch Media Pvt. Ltd., Mumbai

2021 – Present

- Lead end-to-end web development for diverse client projects using PHP Laravel and custom front-end solutions.
- Design and maintain application architecture ensuring scalability, security, and performance.
- Write clean, reusable, and efficient code following industry best practices.
- Integrate front-end UI components with server-side logic and REST APIs seamlessly.
- Coordinate directly with clients to gather requirements and ensure on-time delivery.
- Create branded graphic content — social media posts, banners — using Photoshop.
- Optimise web applications for cross-platform compatibility across all device types.
- Manage code versioning across all projects using Git.
- Leverage AI tools (ChatGPT, GitHub Copilot, Claude AI) to enhance UI/UX and boost efficiency.

CAREER OBJECTIVE

To leverage my full-stack development skills and AI-integrated approach in a dynamic organisation where I can contribute to building innovative digital products. I aim to continuously grow as a developer, take on greater responsibilities, and deliver impactful solutions aligned with business goals and user needs.

ADDITIONAL TECHNICAL EXPERTISE

- Strong understanding of MVC architecture and RESTful API design principles.
- Experience with ORM for efficient database management.
- Familiar with deploying and managing web applications on AWS cloud infrastructure.
- WordPress theme and plugin development for CMS-based client projects.
- Proficient in Bootstrap for building responsive, mobile-first layouts quickly.
- Continuously exploring new front-end libraries and AI-assisted tooling.

CORE STRENGTHS

Problem Solving: Breaks down complex challenges into simple, scalable solutions.

Team Collaboration: Works effectively with designers, engineers, and product managers.

Time Management: Consistently delivers projects on schedule.

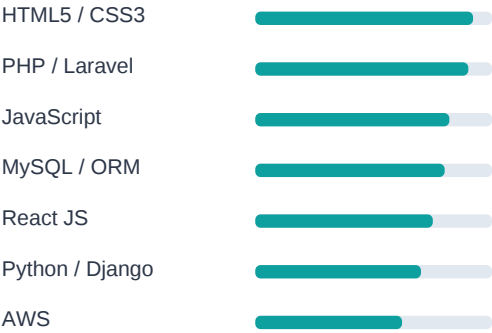

Continuous Learning: Self-motivated learner upskilling in new technologies and AI tools.
